

SIETTA 2026

International Exhibition of Cashew Processing Equipment and Technologies

5th Edition — November 12 to 14, 2026 — Palais de la Culture, Abidjan

Cotton, Cashew and Shea Council

MESSAGE FROM THE GENERAL COMMISSIONER

Le Commissaire Général du SIETTA 2026

General Commissioner of SIETTA 2026

Cotton, Cashew and Shea Council (CCAK) — Côte d'Ivoire

II

Ladies and Gentlemen,

It is with great joy and deep consideration that I speak to you on the occasion of this **5th edition of SIETTA**, which will take place from **November 12 to 14, 2026 in Abidjan**.

The Ivorian Government has made local cashew processing a top priority. The processing level rose from 6.2% in 2014 to **43% of national production in 2025**, representing **659,000 tons** processed.

This 5th edition is part of the ambition to reach **1 million tons** by 2030. The theme "*Cashew Processing: Beyond the Kernel*" serves as a roadmap for the sector.

Our ambition: to make Côte d'Ivoire the **African showcase for a complete, diversified, and competitive cashew industry**.

SIETTA 2026 is your event. **We look forward to welcoming you!**

The General Commissioner of SIETTA 2026
